Town Warrant.

STATE OF NEW HAMPSHIRE.

L.S.

TO THE INHABITANTS OF THE TOWN OF CLAREMONT, IN THE COUNTY OF SULLIVAN, IN SAID STATE, QUALIFIED TO VOTE IN TOWN AFFAIRS:

YOU are hereby notified to meet at the lower assembly room in the Town Hall, in said town, on Tuesday, the ninth day of March next, at eight o'clock in the forenoon, to act upon the following subjects:

1. Shall an act passed by the General Court in the year nineteeen hundred and nine, entitled "An act to incorporate the city of Claremont," be accepted?

2. To see if the town will vote to choose by ballot three assessors according to the provisions of a special act of the Legislature of 1909, permitting the town to do so.

3. To choose all neccessary town officers for the ensuing year.

4. To see what sum of money the town will vote to raise to pay town officers for the fiscal year ending February 15, 1910.

5. To see what sum of money the town will vote to raise to pay incidental expenses for the fiscal year ending February 15, 1910.

6. To see what sum of money the town will vote to raise for the support of schools for the fiscal year ending February 15, 1910.

7. To see what sum of money the town will vote to raise for the repair of highways and bridges for the fiscal year ending February 15, 1910, and determine how the same shall be paid.

8. To see what sum of money the town will vote to raise to pay the debts of the town.

9. To see what sum of money the town will vote to raise for the support of the town's poor for the fiscal year ending February 15, 1910.

10. To see what sum of money the town will vote to raise for the support of the Fire Department for the fiscal year ending February 15, 1910.

11. To see what sum of money the town will vote to raise to pay for the use of hydrants for the fiscal year ending February 15, 1910.

12. To see what sum of money the town will vote to raise and appropriate for street lights for the fiscal year ending February 15, 1910.

13. To see what sum of money the town will vote to raise for the expense of Memorial Day.

14. To see what sum of money the town will vote to raise for the benefit of the American Band.

15. To see what sum of money the town will vote to raise to pay the Board of Education for the fiscal year ending February 15, 1910.

16. To see what sum of money the town will vote to raise in aid of the Claremont General Hospital.

17. To choose a committee for Stevens High School for the ensuing year.

18. To determine the rate of discount the town will allow persons paying their taxes within such period as the town may designate.

19. To choose three members of the Board of Trustees of Fiske Free Library, to serve for the term of three years.

20. To see if the town will vote to raise the sum of fifteen hundred dollars ($1500 00) for the support of Fiske Free Library, to be applied agreeably to the contract with Andrew Carnegie and Samuel P. Fiske.

21. To see if the town will vote to instruct the Selectmen to appoint a board of three commissioners who shall have full charge of the cemeteries in town, sell burial lots and make conveyances of the same, collect the pay, and use the money for the improvements of said cemeteries, and also authorize said commissioners to use the money now on hand which has been raised from the sale of lots, and also raise and appropriate an additional sum of money for the improvement of said cemeteries.

22 To see if the town will vote to raise the sum of $2800.00 and appropriate as much thereof as may be necessary to meet payments maturing on or before Nov. 1st, 1909, of principal and interest, on notes, issued by the School District to pay for new school building.

23. To see what sum of money the town will vote to raise and appropriate for the support of Stevens High School for the ensuing year.

24. To see if the town will vote the Fire Department the free use of the Town Hall one such night as they may desire to hold their annual Firemen's Ball when the hall is not previously engaged.

25. To see if the town will vote to give the free use of the Town Hall at three different times during the year, of the Opera House, once during the year, when not otherwise in use, to the Ladies' Union Aid Society for the benefit of the Claremont General Hospital.

26. To see if the town will vote the American Band the free use of the Town Hall such times as may be selected to the amount of one hundred dollars, when the hall is not otherwise engaged.

27. To see what action the town will take in regard to enlarging and remodeling the present High School Building and raise and appropriate money therefor.

28. To see if the town will vote to issue bonds in the name of the town, or borrow money on notes on the credit of the town, and sell the same for the purpose of raising money with which to pay the expenses of enlarging and remodeling and furnishing the present High School building.

29. To see what sum of money the town will vote to raise and appropriate for the collection and disposal of garbage.

30. To see what sum of money the town will vote to raise and appropriate for the purpose of planting, protecting and preserving shade trees and plants in the Park.

31. To see if the town will vote to make by-laws and regulations for the protection and preservation of the shade trees in the public streets and highways of the town.

32. To see if the town will vote to authorize the Water Commissioners to purchase certain lands near the upper and middle reservoir in Claremont, owned or occupied by Messrs. Fitch, Porter and McQuaid, if the same can be so purchased upon reasonable terms, for the benefit of the Claremont Water Works, or if the same cannot be so purchased, to take the same by right of eminent domain.

33. To see if the town will vote to instruct the Water Commissioners to construct one or more additiona wells on the island, so called, for the benefit of the Claremont Water Works.

34. To see if the town will waive any rights or claim of rights they now have against those who guaranteed the income on water main extensions.

35. To see what action the town will take in reference to amending the by-laws, rules and regulations of Claremont Water Works so that a lower and more equable minimum water rate may be had by users of the water, and to otherwise amend said by-laws.

36. To see what action the town will take in reference to enlarging the water main to Claremont General Hospital, and raise and appropriate money therefor.

37. To see what action the town will take in reference to requiring bonds of town officers, agents and trustees who are intrusted with the collection, care and expenditures of town moneys.

38. To see what action the town will take in reference to the establishing of the salary of the Justice of the Police Court, and to raise and appropriate money therefor.

39. To see if the town will vote to instruct the Selectmen to equalize the charges for weighing at the Town Scales, so that all users of the scales shall pay equally for their use; and to otherwise instruct the Selectmen in reference to the management of the Town Scales.

40. To see what action the town will take in regard to purchasing one thousand feet of hose for the use of the Fire Department and raise and appropriate money therefor.

41. To see what action the town will take in regard to constructing one or more balconies in the town hall, and raise and appropriate money therefor.

42. To see what action the town will take in relation to the building of a Police Court Room and raise and appropriate money therefor.

43. To see if the town will vote to raise not more than four hundred dollars ($400.00) to provide for a separate heating plant for the offices of the Town Building, and put the boilers and piping in proper condition.

44. To see if the town will vote to raise and appropriate the sum of fifty dollars for additional cases in which to place the Wm. Jarvis bird collection in the Carnegie Library.

45. To see if the town will vote to place twelve (12) electric lights between Draper's Corner and Claremont Junction.

46. To see if the town will vote to instruct the Selectmen or the Cemetery Commissioners to select a section of ground at Mountain View Cemetery to be known and kept for the burial of Soldiers and Sailors and their families free from charge. Also to appoint some soldier to assist in the selection and in the care of the same.

47. To see if the town will vote to exempt from taxation such bonds or notes of the town to refund the War Debt Bonds as shall be issued under authority of a vote passed at the Annual Town Meeting in 1908.

48. To see if the town will vote to authorize the Selectmen to sell the stone crushing machinery and building now owned by the town.

49. To see if the town will vote to construct ventilators in the roof of the Town Hall Building and raise and appropriate money therefor.

50. To transact any other business that may legally come before said meeting.

Given under our hands and seal this twenty-second day of February, nineteen hundred and nine.

GEORGE W. PAUL,
CHAS. F. FLETCHER,
W. T. FREEMAN,
} Selectmen of Claremont

A true copy of warrant attest:

To the Public.

The fiscal year which closed February 15, 1909, has been an extraordinary one in the history of Claremont, and it is not probable that we shall experience another such for a long period. The work and responsibility which the town officials have been compelled to assume, has been unusual. In view of these conditions, it is gratifying that so satisfactory a report as the one herewith presented, has been possible.

The action of the town requiring an entire new valuation of all property, which valuation was to be used as a basis for the assessment of taxes for 1908, and to take part in which the town elected four Assessors, whose duty it was to act jointly with the Selectmen in all matters pertaining to said assessment, provided a way for a much needed improvement in a matter of vital importance to the welfare of the town, and the new valuation should be of great value in the years which follow. The valuation was increased from $3,768,648 to $ 4,542,835, an increase of $ 774,187, or 20½ per cent. Had the valuation been the same as in 1907, the large appropriations made at the last annual meeting would have necessitated a tax rate of $ 2.41. Such a rate would undoubtedly be of injury to the town.

The Selectmen take this opportunity to give expression to their opinion, based on observation and study of the subject of valuation and taxation, that a higher rate than $ 2.00 on the present valuation should be avoided. Improvements and progress should have the hearty support of all our citizens; but the same should be so regulated and carried over a period of years, that the benefits sought can be realized without incurring a higher rate.

The fact that the tax warrant was not completed until October, made necessary the floating of large loans in anticipation of taxes, in order to secure funds to meet the current expenses. These loans were obtained largely from individuals who wished to subscribe for a portion of the loan authorized to meet the expense of the Connecticut River Bridge, and such were given opportunity to have a Bridge Note, when issued, in exchange for the short time notes issued to meet current expenses.

Among the items of expense which had to be met and which were extraordinary, several of which could not be foreseen, were the re-building of Pleasant street, the cost of the reappraisal, the building of the new steel and concrete bridge at Red Water Brook, the repairing of the steam fire engine which was found to be in a practically useless condition after the fire at Mr. Huntley's stable, the purchase of 500 feet of hose urgently needed while the engine was useless, the forest fire in the Cat Hole which cost upwards of $900.00, and an increased pauper account. On the other hand there was a falling off in the revenues from the water works and the town hall.

The floating of $30,000.00 of notes, of the $37,000.00 authorized, was found to be sufficient to meet the cost of the Connecticut river bridge, the balance of net cost being paid from money in the treasury not otherwise appropriated.

The total receipts into the treasury were $222,637.59. The total amount paid out on orders of the selectmen was $218,615.94, leaving a balance in the treasury of $4,021.65. Of this balance $923.73 is for the permanent improvement of main highways, $767.60 was appropriated for police station court room, and $1,774.22 is held to retire notes or bonds outstanding Feb. 15, 1908.

Although $30,000.00 of bridge notes were issued, the net indebtedness of the town was increased but $24,840.88.

The condition of the several trust funds is more satisfactory than at any time within the past ten years. There has been a material increase in the sound assets of the Tappan, Fiske and Stevens funds. The payment of the final dividend by the Sullivan Savings Institution has given to the Alden, the Wallingford, the Eastman, the Chellis and the Firemen's funds, an actual value in place of the book value at which they had to be carried during the settlement of the Savings Bank.

Respectfully submitted,

GEO. W. PAUL,
CHAS. F. FLETCHER,
W. T. FREEMAN,
} Selectmen.

Permanent Improvement of Main Highways.

In conformity with the law for the permanent improvement of main highways, Councilor J. D. Upham, State Engineer Dean and the Selectmen decided it was best to continue the work on the Connecticut river road, which was commenced in 1907. There was constructed 2300 feet of road with an under drain similar to the section already built.

It was also decided to build from the railroad track near Draper's Corner, along West Pleasant street towards the village, and there was built 1900 feet of road, terminating at a point on the easterly side of Pleasant Street Cemetery.

The total amount available for State Road Construction and the amount expended are shown by the following table:

STATEMENT OF JOINT FUND ACCOUNT, JANUARY 5, 1909

TOWN OF CLAREMONT

Town contribution,		$ 3,007 67	
State "		601 39	
			$ 3,609 06
Town disbursements approved,		$ 2,437 90	
*State " "		31 31	
			$ 2,469 21
Paid by State to Town,	$ 380 10		
†Balance in Town Treasury,		$ 949 87	
" State "		189 98	
			$ 1,139 85
			$ 3,609 06

*State disbursements indicated above are payments made by the State from the joint fund for surveys, plans, inspection or advertising.

†The balance in Town Treasury remains for future expenditure in accordance with Chapter 35, Laws of 1905, and the regulations adopted by the Governor and Council.

The following bill was omitted from the foregoing table:

Rand, Ball & King Co., coal, wood, tarred paper, etc., $ 26 14

After deducting this bill from the balance in the Town treasury as shown in the table, there remains $923 73, and in the State Treasury $189 98, making a total unexpended balance of $1,113 71 subject to the approval of Governor and Council.

The following are the items of expenditure:

Pleasant Street.

In accordance with the vote of the Town at the last annual town meeting, the rebuilding of Pleasant street from near the intersection with School street to the tracks of the Boston & Maine R. R. was undertaken as designed by State Engineer Dean. The work was done under the supervision of Mr. Lewis, Highway Agent, assisted by Mr. F. W. Brown of the state engineer's office.

Macadam was laid as far south as Prospect street, a distance of 1,290 feet, and the hill from that point to the railroad, a distance of 267 feet, was paved with granite blocks. There were used 1,368.3 tons trap rock and 26,500 paving blocks. Instead of the stone dust commonly used as a binder for the crushed stone, the portion west of the street railway was treated with a preparation of tar known as "Tarvia". This method has the approval of the highest authorities on road construction, and as used on Pleasant street offers a good opportunity to compare results with those of the older methods of laying macadam.

Some uneasiness has existed as to the durability of the macadam for the reason that some stone were picked up by heavy teams before the road had become hardened by use. The engineers state that this is usually so on new roads and that permanent injury to the road will not result. Although this street is subjected to very severe use owing in part to the fact that teams on either side of the car tracks, are compelled to travel in nearly the same place. Mr. Dean is confident that the road will give good service.

The cost of surfacing and paving that part of the street which the railroad is required to maintain, was charged to the Claremont Street Railway Co.

The following gives the entire account in detail :

PLEASANT STREET.

				$ 2,001 83

Red Water Brook Bridge.

The bridge, across Red Water Brook between the village and West Claremont, was found to be so decayed as to be unsafe for use another year and it became a necessity to build a new bridge. The location, at the foot of the Norton Hill, is such that water is frequently flowing onto the bridge and rapid decay of a wooden structure is inevitable.

The selectmen, after consultation with the road agent, decided it was the best policy for the town to erect a steel bridge with a concrete floor. Mr. John W. Storrs was employed to make a plan and bids were invited. The lowest bidders were the United Construction Co. whose bid was $1,273.00. This bid was accepted by the town and a contract was entered into between the selectmen and said Construction Co. on the 5th of August, 1908.

The tops of the old abutments were removed and a concrete top built upon each, into which heavy I beams were bedded. On top of the I beams a six inch slab of re-enforced concrete was constructed over which a gravel surface was placed. This bridge is of sufficient strength to carry the steam road roller, and has a factor of safety of four. The cost of maintenance will be practically nothing for many years. The following are the items of cost:

1908.	NO. ORDER			
Nov. 7	1076	Walter S. Hall, staples and yokes for bridge,		$ 2 00
Dec. 7	1196	United Construction Co., construction of bridge,		1,273 00

Number of feet of cement pipe in use January 1, '09,	42,732
Number of feet of iron pipe in use January 1, '09,	61,873
Total length of main pipe in use January 1, '09, equal to 19 miles and 4,285 ft.	104,605

Street gates set during the year are as follows:

5 8 in. gates.
4 6 in. gates.
1 4 in. gate.
2 2 in. gates.
4 1½ in. gates.
2 1¼ in. gates.

Total number of street gates in use January 1, '09.	228

Blow off gates set during year as follows:

1 6 in. gate.
1 4 in. gate.

Total number of blow off gates January 1, 1909,	6
Number of public hydrants set during the year,	1
Number of private hydrants set during the year,	2
Number of public hydrants January 1, 1909,	75
Number of private hydrants January 1, 1909,	20
Total number of hydrants January 1, 1909,	95
Number of services added during the year,	33
Total number of services January 1, 1909,	1013
Number of meters added during the year,	24
Total number of meters January 1, 1909,	242
Total number of leaks in main pipe during the year,	4
Total number of leaks in hydrant connections during the year,	1

Water was supplied from the wells 127 days during the year.

Total number of gallons pumped, 46,927,152

The Phelps and Straw reservoirs were both cleaned during the year at an expense of $ 879 97

The water in six of the wells on Kelsey's Island, is not good for domestic purposes, and these wells have been discontinued.

An analysis of the other six wells show the water to be excellent; these wells will supply about 450,000 gallons per day. If we should be called upon to supply the town from these wells, during the months of July and August, the amount would not be sufficient, and some action should be taken to secure a larger supply.

The wooden spill-way at the Phelps reservoir, is in very bad condition, and will have to be rebuilt during the coming year.

The wrought iron pipe across the Main st. bridge, is also in bad shape and will have to be replaced during the coming year.

Respectfully submitted,

JAMES L. RICE, Supt.

Treasurer's Statement Showing Income and Expenditures of Claremont Water Works.

FROM JAN. 1, 1908, TO JAN. 1, 1909.

INCOME.

Schedule water rents,	$ 8,240 90
Meter water rents,	5,759 78
Hydrant water rents,	2,834 14
Stock and labor sold,	427 12

EXPENDITURES.

Paid for construction not including stock and labor sold,	$ 3,894 92	
Paid for stock and labor sold,	427 12	
Rebates on water,	2 62	

Paid Incidental expenses,	$ 177 75	
Pumping station expenses,	1,126 59	
Reservoir expenses,	1,141 51	
Salary and office expenses,	1,652 40	
Repairs,	603 53	
Taxes,	1,390 62	
Town Treasurer, cash to pay interest on bonds,	6,224 00	
Town Treasurer, cash to pay interest on notes,	439 94	
Town Treasurer, cash to pay water commissioners,	75 00	
Town Treasurer, bal. on hand,	105 94	
	$ 17,261 94	$ 17,261 94

STATEMENT SHOWING INCOME AND EXPENDITURES OF CLAREMONT WATER WORKS, FROM MARCH 10, 1902, TO JANUARY 1, 1909.

INCOME.

		E. A. Rhodes, services as weigher,	646 32	
		Net earnings of scales for year ending Feb. 15, 1908,	145 76	
				$ 866 35

Commencing with April 1, 1905, an arrangement was made with the town weigher based upon a sliding scale, whereby he was to receive for his services 85 per cent. of the

gross receipts, until such percentage equalled $2.00 per day together with office expenses, after which he was to receive 25 per cent. of remaining gross receipts for the balance of the year. Some irregularity in the charges for weighing at the scales has recently been found to exist. This was owing to the understanding on the part of the weigher that he should be permitted to make some concession in price to large patrons of the scales. As soon as this practice became known, the weigher was notified that the same did not have the approval of the Selectmen and should not continue. Uniform charges are now the rule at the scales.

					$ 106 72

Police Station Court Room.

At the annual meeting of 1908 the town voted to raise and appropriate a sum not in excess of eight hundred dollars ($800.00) for the purpose of raising the present police station to a two storied building, and that the new room be used as a court room and that the selectmen and chief of police be a committee to carry out the provisions of this vote. The committee employed Mr. H. R. Beckwith to make a plan for the proposed addition, including heating and plumbing and a suitable rearrangement of the fire escape from the opera house, which is connected with the police station. On the submission of Mr. Beckwith's plan, bids were advertised for and the following proposals were received :

Chas. A. Rice,	$ 1,550 00
H. R. Beckwith,	1,289 00
Geo. T. Stockwell,	1,028 90

If the lowest bid were accepted the cost of the proposed additions would have been $261.30 in excess of the appropriation, and in view of this fact the committee voted to refer the subject to the town at the next annual town meeting.

The following are the items of expense:

Reappraisal.

At the annual meeting in March, 1907, the town voted to choose at the annual meeting in 1908, four assessors to serve with the board of selectmen in making a reappraisal for the purposes of taxation of the taxable property of the town. Such assessors were elected and the reappraisal was made and was the basis of taxation for 1908. The board were at work nearly all the time for a period of six months and it is the belief of the members that a much better and more equal valuation has been established than has existed for a great many years, and that the benefits which must accrue to the town amply warrant the labor and expense of the work. For a more complete report, the board respectfully refer the tax payers to the list of real estate, and values thereon, published in pamphlet form.

Below is given the entire expense incurred:

1908.	NO. ORDER.			
June 16	218	Fay, Thompson & Fay,		
		3,000 cards,	$ 9 50	
		150 circulars,	2 00	
		500 inventory cards,	4 80	
		250 paper pads,	8 50	$ 24 80
Sept. 11	634	F. P. Huntley, double team, 32½ days,		130 50

1908.		NO. ORDER.			
Oct.	2	720	Gawin Gilmore, services assisting board of assessors on reappraisal,		$ 2 00
		721	Frank W. Johnson, services assisting board of assessors on reappraisal,		2 00
	31	1022	Geo. T. Stockwell, for use of team 39 days for assessors at $1.25,		48 75
Nov.	7	1079	Rand, Ball & King Co., one 100 ft. metallic tape,		3 25
	14	1107	J. H. Warner Co., record book for reappraisal,		13 25
	28	1136	O. D. Blanchard, 27 days clerical labor assisting the board of assessors for 1908,		67 50
	30	1149	Nat'l. Eagle, advertising,	$ 1 80

Town Hall Ventilators.

At the annual meeting of 1908, a vote was passed instructing the selectmen to construct ventilators in the roof of the town hall building over the opera house stage, and appropriating a sum not to exceed five hundred dollars. As no article appeared in the warrant it was not considered best to raise by taxation the money appropriated.

Chemical Fire Engine.

At the annual meeting of 1908, a vote was passed empowering a committee composed of the selectmen and chief engineer to purchase a chemical fire engine and apparatus at an expense of one thousand or twelve hundred dollars. As no article appeared in the warrant, it was not considered best to raise by taxation the money appropriated.

Connecticut River Bridge.

At the annual town meeting of 1908 the following resolutions were adopted :

RESOLVED :—That the selectmen of Claremont be instructed and required to build a free iron or steel bridge over the Connecticut river at or near the site of the old Claremont bridge with suitable piers, abutments and approaches to the same in accordance with the plans and specifications of Mr. Storrs, the architect who has been employed by said selectmen and make all necessary contracts in connection with the same.

RESOLVED :—That the town of Claremont purchase the franchise and property of the Claremont Bridge and Ferry Corporation provided the same can be obtained at a price which the selectmen shall deem reasonable or if necessary lay out a highway to the Vermont line over the same upon a proper petition presented for that purpose if in their judgment the public good requires the same to be done.

RESOLVED:—That the selectmen are hereby authorized to borrow on the credit of the town a sum not exceeding thirty-seven thousand dollars for the purpose of purchasing the franchise and other property of the old Claremont Bridge Company, and in part payment of constructing a free bridge over the Connecticut river. And that to defray the farther expense of said bridge above the thirty-seven thousand dollars named above, the selectmen are hereby authorized to assign and make over the eight thousand dollars donated by the State of New Hampshire to any contractor or contractors who may construct said bridge. And that the five thousand dollars to be paid by the town of Weathersfield, Vt., when received shall be applied so far to reimburse said town of Claremont for the outlay of building said bridge. And be it further

RESOLVED :—That the Town of Claremont shall annually pay at least one thousand dollars of the principal of the net indebtedness so incurred and interest until the whole is paid.

Acting under the above vote, the selectmen on the 17th day of April, 1908, completed the purchase of the property and franchise of the proprietors of Claremont Bridge Company, the price agreed upon being $3000. Payment was

made by note of the town made payable to Leonard Jarvis, treasurer.

The selectmen on the 5th day of May, 1908, entered into a contract with Douglass & Varnum of Woodsville, N. H., by the terms of which said Douglass & Varnum were to build and erect in place and have all completed by the 1st day of Oct., 1908, the substructure as described in the specification and plan of John W. Storrs, consulting engineer. The price to be paid was $18,000.

On the same date the selectmen entered into a contract with the United Construction Co. of Albany, N. Y., by the terms of which said construction company were to build, paint, erect in place and have ready for travel by the 15th day of Dec., 1908, a steel highway bridge as described in the specification and plan of John W. Storrs, consulting engineer. The price agreed upon being $21,804. Both contracts were completed within the specified time.

In the matter of the substructure, it was found at the time of low water, desirable to have a concrete fender constructed on the front of the westerly pier, and $60 was agreed upon as a price to be paid for the same. When the Vermont abutment was taken down to the crib work on which it stood, said crib work was found to be one foot below the grade of the plan. This discrepancy could not be forseen owing to the timber formation on the front of the crib. This required 27 yards of concrete masonry for which $270 was paid. The engineer advised the placing of riprap around this abutment and $80 was paid for this. The contract called for the placing of 50 yards of riprap around the easterly pier. As the contractors could not place this riprap in position at the time they were building the masonry without great expense to them, an agreement was made by the terms of which their contract price was reduced $200. They were employed at a cost of $19.80 to pile the stone, remaining after the completion of the Vermont abutment, conveniently for handling when the river should be covered with ice. This riprap has been laid by the town at an expense of $54.43.

Below is given an itemized account of all the receipts and disbursements in connection with the purchasing of the property and franchise of the Bridge Co., the operating of the ferry, the construction and erection of the substructure and super structure and the approach to the same.

Proceeds of Connecticut river bridge notes,	30,000 00	
From revenues not otherwise appropriated,	1,016 83	$ 32,267 83

The bridge is a pin connected Pratt truss, with curved upper cord, and consists of three spans with a total length between parapets of abutments of 544 ft. 5 in., and the width of the roadway is 20 ft. The trusses and floor beams are designed to carry a 50 ton electic car. The floor stringers are designed to carry 10 tons on four wheels, and the whole bridge has a factor of safety of four. The bridge is so designed that it can be used to carry an electric car line by changing the floor stringers on one side of the roadway.

GEO. H. STOWELL, Treas.

There has been an increase of 3600 books circulated by the library during the year 1909, over that of 1908, while 1908 exceeded 1907 by 3000. The improved circulation is due to the removing of all possible restriction making the books as accessible as possible. A gratifying, steady increase in the use of the reading rooms is noticeable. Reference work too has gained in amount. Especial note should be made of the interest expressed by the gift of books to the library from several persons. A bronze tablet containing the Gettysburg speech is an appropriate addition to the walls of the reading room, purchased by subscription of some sixty persons. Through the kindness of Mr. Harry Rice of Lowell,

the library now owns thirty-two of Powers' Photographs of native wild flowers. These photographs have been mounted and the expense defrayed by another friend of the library. The Jarvis bird collection, the gift of Dr. William Jarvis, is another valuable and interesting addition to the library.

IRA G. COLBY, Secretary,

Trustees Fiske Free Library.

Report of Board of Health.

There have been reported to the Board of Health twenty-nine cases of diptheria, fifteen cases of typhoid fever and eleven deaths from consumption.

Diptheria antitoxin has been furnished free of charge to all persons who were in need of it, and who, in the judgment of the Board, were unable to pay for it. The Board recommends that a sufficient sum of money be raised and appropriated for the purpose of providing for the removal of garbage.

A system of sewerage which will take all the sewage of the compact portion of the town and properly treat it so that it will not be a menace to the health of people living below us on the Sugar and Connecticut rivers is urgently needed.

The town should purchase additional land so that the reservoirs of the water system may be properly protected.

GEORGE A. ROWELL,
H. C. SANDERS, M. D., } Board of Health.
RUFUS L. HOWE,

Stevens High School.

Committee Report.

There have been a number of changes in the teaching staff during the year: Miss Hammond replacing Miss Pitman and Mr. Merrill succeeding Mr. Wells, and two new teachers, Miss Kimball and Miss Prescott added to the force.

The growth of the school in numbers of pupils attending has rendered it necessary to divide classes into sections for easier handling and efficient instruction thereby increasing the recitation periods to such an extent that it was considered imperative to make this addition if a high degree of efficiency were to be maintained. The work now demanded of this devoted and conscientious staff of teachers, even with the above noted addition, is very severe and their salaries below the average paid by towns of equal size.

The crowded condition of the school demands immediate attention. The seating capacity is already taxed to the limit, with a large class sure to enter next fall, which will make it necessary to seat a large number during study periods in the chemical laboratory, a nuisance not only to the instructor and class reciting and making experiments, but to those trying to study as well, and with the constant fumes of gases and acids sure to prevail a menace to health and an excellent excuse for poor work while required to study under such conditions.

The committee earnestly recommend that the town raise and appropriate $2,500.00 to meet the increased salary list and running expenses of the school for the ensuing year.

The following table shows the total number of pupils enrolled each year during the last eight years:

1901-1902 — 80	1905-1906 — 140
1902-1903 — 94	1906-1907 — 136
1903-1904 — 114	1907-1908 — 153
1904-1905 — 135	1908-1909 — 156

It is estimated that this year's pupils from the 9th grade numbering seventy (70) will raise the enrollment to 180 or 190 for 1909-1910.

Report of Committee on High School Requirements.

The committee chosen at the annual town meeting of 1908 "to ascertain the needs of the town of additional high school accommodation, and to report their finding at some subsequent date," submit the following to the voters of Claremont.

That the committee find, that the high school building erected in 1867 was designed to accommodate about one hundred pupils, that the number of pupils enrolled this school year is one hundred and fifty-six, the attendance having practically doubled in the last ten years, that there is a steady increase in the numbers presenting themselves for entrance to the High School with an increasing percentage finishing the course; that the Town School Committee estimate that the rate of increase will be maintained for some years to come at least; that the present High School Building is crowded to a degree that renders seating and handling the scholars difficult, thereby impairing the highest efficiency attainable under proper conditions; that with the present crowded condition it is necessary to seat some of the pupils during study periods in the chemical laboratory, at all times disagreeable, and a menace to their health; that the graduating class this year numbers about thirty, and that the 9th grade in the town schools numbers about seventy, a very large percentage of whom, we are informed by the Superintendent of Schools, will present themselves for entrance to the High School this fall, raising the numbers to be accommodated to about one hundred and eighty to one hund-

red and ninety this year; the upper floors of the building need strengthening to obviate vibration, and that the roof, if the present building is retained unaltered, needs painting and some overhauling.

The Committee, after consultations with the principal and teachers of the school, correspondence with the principals of the High Schools of Concord, Nashua, Dover, Berlin and Plymouth, and with the Superintendent of Public Instruction of the State of New Hampshire, therefore respectfully recommend to the Town, that the plans and estimates of cost furnished by Messrs. Gay and Proctor, Architects, of Boston, Mass., be adopted. These plans, as advised by Messrs. Gay and Proctor, propose a three story addition on the East or Broad Street front of the present building 45 ft. by 90 ft. with basement, the length of the building running North and South, and the removal of the roof of the present structure and carrying up the brick walls to the height of the proposed addition, the whole to be covered by a roof in proper proportions, strengthening the floor timbers of the two upper floors and the rearrangement of the stairways, at an estimated cost of $44,000.00, with architects commissions, furniture and outside grading to be added, thereby making adequate accommodation for some years to come, and providing for continuing the school during building without resorting to the renting of outside rooms. The plans as proposed may be seen by those interested to inspect them, the elevations in the window of Messrs. Quimby & Quimby and the floor plans at the office of Mr. Ira G. Colby.

Signed:

} School Board.

For the school year closing June 12, 1908.

Claremont, N. H., July 1, 1908.

Police Department.

To the Honorable Board of Selectmen:

I have the honor to submit the annual report of the police department for the year beginning Feb. 15, 1908, and ending Feb. 15, 1909.

The force consists of chief, 1 captain, and 8 special police. The chief is on duty during the day, and the Captain on duty during the night, assisted by one special each evening. During the summer there was a police on duty on North st. by request of the public of that part of the town.

The total number of arrests were 154, one being female.

The amount of fines and costs imposed were, $ 1,268 56

The amount of fines and costs paid, 415 20

Of those convicted 54 paid, 32 were taken to jail, 48 to the House of Correction, 8 cases were put on probation, one went to the Industrial School at Manchester, 7 to higher court, and 4 were turned over to officers out of town.

Offences for which complaints were made:

Drunk,	124	Soliciting money falsely,	1
Assault,	9	Non-support of children,	1
Larceny,	7	Defrauding hotel,	1
Cruelty to animals,	2	Dealing in old junk without license,	2
Search and seizure,	3		
Escaped convicts,	3		
Trespass,	1		154

Number of persons arrested by each officer:

J. H. Ober,	43	John McGrath,	10
E. S. Cole,	42	Daniel Canty,	2
E. B. Monta,	10	F. M. Gunn,	10
H. L. DeCamp,	10	Geo. Michaud,	1
H. C. Brown,	16		
C. D. Whitney,	10		154

Lost children restored to parents,	2
Number of house fires attended,	17
Number of town people arrested,	16
Number of business places neglecting to lock the doors,	18

Number of tramps who had lodging during the year :

J. HOWARD OBER,

Chief of Police.

Chief Engineer's Report.

During the year ending February 15, 1909, there were eleven bell alarms of fire, as follows:

March 13, 6.15 p. m., box 19, Roberts' Mills, Sullivan st.
June 4, 4.05 p. m., box 37, Spofford tenement, High st.
June 19, 10.50 p. m., box 16, dump on Mulberry st.
June 28, 9.30 p. m., box 28, bowling alley, Pleasant st.
Aug. 1, 3.30 a. m., box 13, Colby tenement, Sullivan st.
Aug. 4, 6.05 p. m., box 13, Odd Fellows' house, Pleasant st.
Oct. 4, 4.30 a. m., box 26, St. Mary's rectory, Central st.
Nov. 3, 6.00 a. m., box 17, C. & C. freight depot.
Nov. 13, 12.15 a. m., box 13, Huntley's City stables, Sullivan st.
Nov. 26, 6.30 p. m., boxes 17 and 35, Butterick house, Baker st.
Jan. 24, 3.00 p. m., box 26, Baptist church, Main st. This box was crippled by the lightning that struck the Baptist church and started a slight fire in the tower, and when pulled did not respond.

Still alarms for chimney, brush and other fires, 76.

For the still alarms, the apparatus responded to four, where the circumstances would have warranted bell alarms, but for the early notification of headquarters by telephone. The most serious property loss by fire for which a still alarm was given, was the burning of the Levi Bartlett barns, on the Charlestown road, the afternoon of Nov. 18. The most expensive brush fire was in the Cat Hole district, near the Newport line, that required the work of a large number of men for a period of about two weeks. The property loss involved at this fire was small, compared with the expense to the town of fighting it. The fire required unusual attention from the fact that the location was such that had it once gotten beyond control, large lumber and other valuable property interests would have been in great danger.

The number of still alarms for chimney fires has been unusually large. Such fires invariably result from fou

chimneys, and the Engineers suggest that a little time judiciously spent in the fall of the year, cleaning and putting chimneys in order, would safeguard property and at the same time save the town money.

Of the bell alarms, an exceptional feature was that the three most serious fires started in the night in the very center of the business part of the town, all within a radius of a few hundred feet, and all had gained headway before discovery. A fortunate circumstance in connection with the worst of these,—the City stables fire,—was that Mr. N. W. Fay, residing very near the stables and discovering the fire very soon after it started, immediately telephoned the Chief Engineer, whereby valuable time was saved before a general alarm was sounded. The Chief, several firemen and the hose wagon had a start of a number of minutes, that undoubtedly prevented the loss of 26 horses and a more serious fire loss. Those having telephones in their homes may bear this in mind when discovering fire in the night, and act accordingly in such emergency.

During the year there has been added to the Department five hundred (500) feet of new hose, one (1) hydrant has been put in on the Myrtle St. extension, and one (1) new alarm box, 45, has been placed on North St. This is a private box, installed by the Sullivan Machinery Co., and generously given public use of, but with the understanding that the town will place a box in that district within a reasonable time. A number of new rubber coats and some necessary tools have been purchased for the general equipment, replacing others that were worn.

The electric fire alarm system is in proper working order and has met all requirements. The unprecedented electrical storm of January 24, damaged the motor generator and several boxes, temporarily, necessitating quite an outlay of money for repairs, which has added to the unforseen expenses of the Department during the year. Also, following the City stables fire, a broken casting was found on the steamer, the repairs costing about $250.

RECOMMENDATIONS.

While there is always opportunity to recommend additions and improvements, it is imperative that the hose supply should be ample and of first-class quality, and I recommend the immediate purchase of one thousand (1,000) feet of new hose. Hose is constantly wearing out, and it would

be a policy of economy for the town to purchase five hundred feet of new hose annually.

Several additional hydrants are needed in different sections of the village, repeatedly mentioned and recommended without results. At the Baker St. fire the Department was handicapped by the absence of a hydrant anywhere near the burning house. In this rather thickly builded neighborhood it was necessary to lay nearly one thousand feet of hose.

West Claremont has a hose company but no quarters for the same, and I recommend the fitting up of rooms adequate to house such apparatus as is kept there, and furnish a suitable place for company meetings. It can be done at a very small expense.

No further special recommendations are suggested at this time. As the town grows, it is obvious that the Fire Department will be kept up to the requisite standard of efficiency, that has marked the past policy of maintenance.

During the year one accident is recorded. James W. Townsend, of Tiger H. & L. Co., while answering an alarm of fire, slipped as the truck was leaving the house on Main St., and was thrown in such a manner that one foot was run over, causing a very painful injury that kept Mr. Townsend confined to the house for a number of weeks. It was a narrow escape from a more serious accident.

The Department work has been marked in all instances by faithful co-operation and good will, for which I express my thanks and appreciation to members and brother officers, and also as heretofore to the police department for general assistance.

Following is the make-up of the Department and its equipment:

Chief engineer and three assistants.
Eagle Hose No. 1, 20 men.
Tiger Hook & Ladder No. 1, 16 men.
Steamer Claremont No. 1, 5 men.
Eagle Hose No. 2, 5 men.

EQUIPMENT.

One Silsby rotary pump steam fire engine.
One hook and ladder truck and fittings.
One hook and ladder sled.
One hose wagon and fittings.
One hose sleigh.
Four hand hose reels.

Three thousand fifty feet hose.
Three pony chemical extinguishers.
Drop harness for hose wagon and hook and ladder truck.

FIRE ALARM SYSTEM.

This is divided into three circuits, and includes approximately eighteen miles of wire, motor generator, switch board, storage battery of 206 cells, one tower bell tapper, two automatic tape registers, 29 alarm boxes including 5 private boxes, 2 twelve-inch tappers and 14 six-inch tappers.

All of which is respectfully submitted,

C. E. SEARS, Chief Engineer.
